

NDT Lab & Level III

NDT Lab Services

Applied Technical Services' state-of-the-art testing lab is equipped with the latest and most advanced equipment. As a certified FAA 145 Repair Station, many aerospace companies rely on our technicians to perform a multitude of methods on various materials, components and weldments. Our reliable findings are accurately documented according to Codes and Standards giving you peace of mind or information needed to take corrective action. A thorough and stringent audit conducted by the Performance Review Institute (PRI), has earned Nadcap NDT accreditations for ATS services in the aerospace industry.

NDT Level III Services

Our expert ASNT NDT Level III personnel offer consulting services for companies looking to gain Nadcap accreditation. We have been affiliated with and been accredited by Nadcap for many years. Our Level III's are industry experts and have extensive experience with Nadcap facility and procedural audits. We offer full consultation support pre, post and during the Nadcap audit process.
